

CS 480 / CS 481 ~ PROJECT

FINAL PROJECT DEMONSTRATION GUIDELINES

Present a final review and demonstration of your project. The instructor must be present; your customer and the other class members should be, if they can make it.

This presentation should cover the following:

- * The problem:
 - * Overview of the problem your project is addressing;
 - * Description of the end users;
- * The solution:
 - * Overview of your solution to the problem;
 - * Description of the overall flow of the system;
 - * A demonstration of the project itself.
- * Project Status:
 - * Review of the project (what has or hasn't been implemented, etc.);
 - * The future (anything else you will do for your customer).
